They passed the Winter in McMurdo Sound and in the fall a party accomplished the first ascent of Mount Erebus and surveyed its craters. In Spring & Summer of 1908-09, 3 sledging parties left winter quarters, one discovered the Great Beardsmore Glacier, and set a record for the farthest South, Shackleton deciding to turn back within only 97 miles of the pole rather than risk the lives of his men. Another including Mawson reached the South Magnetic Pole for the first time and the third surveyed the mountain ranges west of McMurdo Sound. Shackleton was subsequently knighted for his achievements.

Loose enclosures.
1 A note on watermarked paper which reads 'With the Comps. and Kind regards of Monkshood'
2. A Letter from the Canterbury Museum which states ' On examination it is our considered opinion that the hand writing of 'Monkshood' and E.H. Shackleton are one and the same Shackleton was known for using pseudonyms'.
FIRST EDITION, THE FIRST BOOK PUBLISHED AND PRINTED IN ANTARCTICA during the Nimrod expedition of 1908-1909, while wintering in their hut. One of approximately 80 recorded copies. To keep his men occupied during the dark winter months in the Cape Royds hut, Shackleton asked for written stories, poems, or humorous short essays from his men. The best were to be published. Shackleton brought with him a small printing press, paper and type (donated by J. Causton & Sons Ltd). The printing and publishing was co-ordinated by Ernest Joyce and Frank Wild, both of whom had undertaken short printing courses prior to their departure. George Marston provided illustrations, and Bernard Day made the bindings from the crates used for provisions. The ink was heated by candles, and much of the printing was done when the other men were sleeping to minimize vibration. Shackleton wrote the introduction and preface to the text, and contributions were made by 10 other members of the crew. A total of 80 bound copies of Aurora Australis were brought back from Antarctica in 1909 (as mentioned in a letter from Shackleton to Pierpont Morgan, now in the Morgan Library, New York).

76 SHACKLETON, LADY EMILY
Two Diaries 1909 - 1910
Two original hand written diaries by Lady Shackleton.
The first Diary - 30pp (8 blank) unbound, written in ink while Emily toured Europe with Sir Ernest, covering the period Dec 29th 1909 to January 20th 1910.
Second Diary - 255p, each verso blank. one diagram, bound with string cord and wrapped with red tape ties. Written in ink by Emily during the USA trip with Sir Ernest on his lecturing tour to raise funds to pay off the Nimrod Expedition and to promote his book ' Heart of the Antarctic' March 1910.
A rare and original diary from the Shackleton collection and marked with that stamp.
The diaries of Lady Shackleton are of particular interest, showing something of the atmosphere of Shackleton's first flush of fame and his exploitation of it in his European and North American lecture tours in 1909-10. The US leg of the tour in particular was expected to raise sufficient money not only to pay off the debts of the Nimrod expedition, but also to fund Shackleton's already projected next excursion to the Antarctic. After an enthusiastic reception in New York and Boston, however, the diary records the falling off of interest as the tour continued, blighted perhaps by the presence of Robert Peary, then at the height of his dispute with Frederick Cook over their precedence at the North Pole: 'The best description I heard of [Peary] is that he looks like a circus master, & as if he ought to be cracking a big whip in the ring ... People here are sick of the N. Pole'; Lady Shackleton herself shows barely-suppressed signs of South Pole sickness - 'I am so sick of being asked how I felt when E. was away. I long to say "very happy ..."' As catalogued in Christies 2001 Polar sale

Lots offered and sold as described and viewed: ART+OBJECT makes all attempts to accurately describe and catalogue lots offered for sale. Notwithstanding this neither the vendor nor ART+OBJECT accepts any liability for errors of description or faults and imperfections whether described in writing or verbally. This applies to questions of authenticity and quality of the item. Buyers are deemed to have inspected the item thoroughly and proceed on their own judgment. The act of bidding is agreed by the buyer to be an indication that they are satisfied on all counts regarding condition and authenticity.

5.
Buyers premium: The purchaser by bidding acknowledges their acceptance of a buyers premium of 20% plus GST on the premium to be added to the hammer price in the event of a successful sale at auction. Please consult the relevant auction catalogue to confirm the premium for each sale.

6.
ART+OBJECT is an agent for a vendor: A+O has the right to conduct the sale of an item on behalf of a vendor. This may include withdrawing an item from sale for any reason.

7.
Payment: Successful bidders are required to make full payment immediately post sale – being either the day of the sale or the following day. If for any reason payment is delayed then a 20% deposit is required immediately and the balance to 100% required within 3 working days of the sale date. Payment can be made by Eftpos, bank cheque or cash. Cheques must be cleared before items are available for collection. Credit cards are not accepted.

8.
Failure to make payment: If a purchaser fails to make payment as outlined in point 7 above ART+OBJECT may without any advice to the purchaser exercise its right to: a) rescind or stop the sale, b) re offer the lot for sale to an underbidder or at auction. ART+OBJECT reserves the right to pursue the purchaser for any difference in sale proceeds if this course of action is chosen, c) to pursue legal remedy for breach of contract.

9.
Collection of goods: Purchased items are to be removed from ART+OBJECT premises immediately after payment or clearance of cheques. Absentee bidders must make provision for the uplifting of purchased items. (see instructions on the facing page)

10.
Bidders obligations: The act of bidding means all bidders a knowledge that they are personally responsible for payment if they are the successful bidder. This includes all registered absentee or telephone bidders. Bidders acting as an agent for a third party must obtain written authority from ART+OBJECT and provide written instructions from any represented party and their express commitment to pay all funds relating to a successful bid by their nominated agent.

11.
Bids under reserve & highest subject bids:
When the highest bid is below the vendor's reserve this work may be announced by the auctioneer as sold ' subject to vendor's authority' or some similar phrase. The effect of this announcement is to signify that the highest bidder will be the purchaser at the bid price if the vendor accepts this price. If this highest bid is accepted then the purchaser has entered a contract to purchase the item at the bid price plus any relevant buyers premium.

Important advice for buyers

The following information does not form part of the conditions of sale, however buyers, particularly first time bidders are recommended to read these notes.

A.
Bidding at auction:
Please ensure your instructions to the auctioneer are clear and easily understood. It is well to understand that during a busy sale with multiple bidders the auctioneer may not be able to see all bids at all times. It is recommended that you raise your bidding number clearly and without hesitation. If your bid is made in error or you have misunderstood the bidding level please advise the auctioneer immediately of your error – prior to the hammer falling. Please note that if you have made a bid and the hammer has fallen and you are the highest bidder you have entered a binding contract to purchase an item at the bid price. New bidders in particular are advised to make themselves known to the sale auctioneer who will assist you with any questions about the conduct of the auction.

B.
Absentee bidding: ART+OBJECT welcomes absentee bids once the necessary authority has been completed and lodged with ART+OBJECT. A+O will do all it can to ensure bids are lodged on your behalf but accepts no liability for failure to carry out these bids. See the Absentee bidding form in this catalogue for information on lodging absentee bids. These are accepted up to 2 hours prior to the published auction commencement.

C.
Telephone bids: The same conditions apply to telephone bids. It is highly preferable to bid over a landline as the vagaries of cellphone connections may result in disappointment. You will be telephoned prior to your indicated lot arising in the catalogue order. If the phone is engaged or connection impossible the sale will proceed without your bidding. At times during an auction the bidding can be frenetic so you need to be sure you give clear instructions to the person executing your bids. The auctioneer will endeavour to cater to the requirements of phone bidders but cannot wait for a phone bid so your prompt participation is requested.

D.
New Zealand dollars: All estimates in this catalogue are in New Zealand dollars. The amount to be paid by successful bidders on the payment date is the New Zealand dollar amount stated on the purchaser invoice. Exchange rate variations are at the risk of the purchaser.
